A. Course: 37:575:250:06 Finance for Personal and Professional Success (3) Joel Schrieber

B. Pre-Requisite: None

C. Meeting Times: Mondays 7:15 – 10:05PM, beginning January 27, 2014
   Location: C/D Labor Education Center – Room 137

D. Course Description: Overview of core financial concepts and techniques useful both at work and in personal life; interest, credit, insurance, investments, present value; and net worth

E. Overarching Math Philosophy/Objectives Overview: Mathematics of Life

Imagine that you are taking a vacation next year. You have many financial choices to make. How big is your vacation budget and how do you want to allocate it? The more money that you save now, the more you will have to spend on your vacation.

Now imagine that you are planning your financial future. You have many choices to make. How will you pay off your student loan? How much of your budget should be allocated to food and utilities? How much can you afford to spend on clothes? Should you buy a house? Should you buy a new car? What investments should you consider? When do you want to retire? All of these decisions require detailed planning.

Financial planning, prudent financial management, and careful spending can help you achieve your financial goals, which affect one's standard of living in the future.

The financial planning process enables you to understand the key components of a financial plan and to develop a personal financial plan. The simple objective of financial planning is to make the best use of your resources to achieve your financial goals. The sooner you develop your goals and a financial plan to achieve these goals, the easier it will be to achieve your objectives. Topics in personal finance include financial and career planning, budgeting, tax management, cash management, credit cards, borrowing, major expenditures, risk management, investments, retirement planning and estate planning.

Success in Life. A solid understanding of personal finance topics offers you an increased probability of success in facing life’s financial challenges, responsibilities and opportunities. Such successes might include: paying minimal credit costs, not paying too much in income taxes, purchasing automobiles at low prices, financing housing on good terms, buying appropriate and fairly priced insurance, selecting successful investments that match your needs and tolerance for risk, planning for a comfortable retirement, and passing on your estate with minimal transfer costs.

Basic Mathematical models underlie all these financial analyses. The mathematics behind the time value of money can be applied to determining how much current savings will be worth in the future, or how to reach your goal of saving for a house or starting a business. If you were to win the lottery, should you take the lump sum or annual payments (annuity). If you have to invest, how do you know what is a good return? How much does a credit card really cost? How much money do you need for retirement? Debt also grows through mathematical models. There are tax implications as well.

Critical thinking plays a major role in financial analysis, as there may be more than one way to accomplish a goal. For example, if you decide to reduce your housing expenses you can, for example, either move to a cheaper unit and/or take in a roommate. If you’re saving for retirement, and can’t save enough each month to meet your goal; consider alternatives such as: later retirement, reducing current or future expenses, or investing differently.

The measures of performance in this class will be referred to as authentic assessments. That is, student performance is evaluated based upon realistic life decision assignments, including:

- a series of math problems,
- an ongoing case analysis,
- course projects, such as assessing a lease and managing stocks in the stock market; planning for retirement planning using the time value of money; finding the best bank to fit your needs,
- Excel applications; one project applies the Pareto Principal (80:20 Rule) to tracking your frivolous expenditures (non obligations of rent or mortgage, insurance, etc.) using Excel.
- developing your personal financial plan.
This is in sharp contrast to the types of assessments based on multiple choice, short answer, etc. in a timed environment. Clearly this type of assessment will provide the student the same type of environment as s/he will have during his/her life.

F. **Relationship to SAS Learning Objectives:**
   • **Goal x** (Apply effective and efficient mathematical or other formal processes to reason and to solve problems.) Specifically the focus is on the mathematics underlying the process of investment, and borrowing/ saving money. The student will learn to apply concepts from algebra necessary to specify and solve equations related to loans, savings, mortgage, credit and insurance using compound interest.
   • **Goal w** (Formulate, evaluate, and communicate conclusions and inferences from quantitative information)

**LSER Objective** – Formulate, evaluate, and communicate conclusions and inferences from quantitative information about work

**Other Learning Objectives:**
• Familiarize students with core concepts of interest, present value, risk, diversification, and insurance,
• Improve student skills in using spreadsheets and other tools in common use for analyzing financial information, and
• Introduce students to major types of financial instruments including stocks, bonds, mutual funds, and to investments in real estate.

**Assessment of Learning Objectives:** Project assessments will be used to evaluate these objectives.

G. **Text - Required:** Madura, J., *Personal Finance*, Pearson-Addison/Wesley, 5e, 2013, ISBN 978-0-13-299434-7. The text is needed by the first week of class. I am unsure if the international version is equivalent. A copy of the 4e of the text is on reserve at the Chang Library (not the library in the LEC), next door to the CDL building.

H. **Instructor:** Joel Schreiber, MBA, CFP ®

I. **Contact me directly for personal issues:** joel.schreiber@rutgers.edu

J. **Please use the course’s Sakai Chat Room folder:** For any questions pertaining to class material.

K. **Office Hours:** Monday evenings, 5:45 – 7:00 PM in the LEC building.

L. **Special Needs** – Rutgers, the State University of New Jersey abides by the Americans with Disabilities Act of 1990, the Americans with Disabilities Act Amendments (ADAA) of 2008, and Sections 504 and 508 which mandate reasonable accommodations be provided for qualified students with disabilities and accessibility of online information. If you have a disability and may require some type of instructional and/or examination accommodation, please contact me early in the semester so that I can provide or facilitate in providing accommodations you may need. If you have not already done so, you will need to register with the Office of Disability Services, the designated office on campus to provide services and administer exams with accommodations for students with disabilities. Here are the particulars:

Lucy Stone Hall, Livingston Campus, 54 Joyce Kilmer Ave., Suite A145, Piscataway, NJ 08854-8045
**E-mail Address:** dsoffice@rci.rutgers.edu **Phone:** (848) 445-6800 **Fax:** (732) 445-3388

I look forward to talking with you soon to learn how I may be helpful in enhancing your academic success in this course.

M. **Assessments:** This class is hands-on and features assessment of projects and Take Home Exams, rather than a lecture course that uses exams to assess learning. Course assessment is calculated as a weighted average of the following projects:

<table>
<thead>
<tr>
<th>Notes</th>
<th>Please read carefully.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Note 1:</strong> Please go to Sakai to the Assignments Folder. There are four assignments: Take Home Exam 1, 2, 3, and 4. All submissions must be typed, saved, and uploaded in Sakai, with your name on all pages.</td>
<td></td>
</tr>
<tr>
<td><strong>Note 2:</strong> The in-class projects such as current events, summaries of guest speakers, are listed separately.</td>
<td></td>
</tr>
<tr>
<td><strong>Note 3:</strong> You should not submit handwritten responses torn from the book.</td>
<td></td>
</tr>
</tbody>
</table>

| 3/10       | 3       | **Chapter 3 (Applying Time Value of Money Concepts)**  
  **4 Types of TVM Problems:**  
  Future and present value of a single dollar amount  
  Future and present value of an annuity (multiple payments)  
  Only 2 Steps to solving TVM problems (Determine which of the 4 it is, then solve it in Excel)  
  **Using Microsoft Excel:** Using Excel to calculate any time value of money problem  
  Ex: Evaluating the time value of a variable annuity income guarantee (bonus)  
  **Math Literacy Assessment Pre-Test**  
  Finance for Personal and Professional Success – Helpful Formulas and Terms  
  **Introduce Excel Pareto (Spending) Project; hand calculations; Pareto Made Easy:**  
  Please start tracking your data for the Pareto Project.  
  **Sign Up Form for Current Events (continued)** |
| 4/17       | 4       | **Chapters 5 (Banking and Interest Rates); and 6 (Managing Your Money)**  
  How to select a bank  
  Types of financial institutions and their banking services; Interest rates; Money market investments and their risk  
  How to choose a bank, given minimum deposits, balances, monthly fees, check-writing charges?  
  How do you evaluate choosing between two CDs?  
  How banking services fit within your financial plan  
  Why do interest rates change?  
  **The Economy Today:** Today's Fed, “Big Ben,” and the “Tale of the Taper”  
  **Psychology of Personal Finance:** Are low interest rates on savings driving you to riskier investments?  
  **Gary Grandview Panel Discussion:** Gary's Cash Flow and Credit Situation  
  **Sign Up Form for Current Events (continued)** |
| 5/24       | 5       | **Chapter 7 (Assessing and Securing Your Credit) and 8 (Managing Your Credit)**  
  Do you know your credit score and credit history?  
  Interpreting your 3 credit scores  
  Maintaining good credit: How much, and what types of credit are good?  
  7 Small Mistakes that will hurt your credit score  
  The real cost of credit: Review of the power of compounding, working against you!  
  New Credit Card rules  
  Improving your credit scores: The Case of Charlie O.  
  **In-Class Identity Theft Assessment**  
  Evaluate your preparedness to defend against identity theft  
  **Stolen email identity – The Case of Mary D.**  
  Electronic pick-pocketing  
  Evaluation of personal loans, auto loans and 30-year mortgages  
  Finance Charges; Estimating Credit Repayment  
  **Sign Up Form for Current Events (continued)** |

<table>
<thead>
<tr>
<th>Date</th>
<th>Chapters</th>
<th>Topics</th>
</tr>
</thead>
</table>
| 6 03-03    | 9 (Personal Loans) and 10 (Purchasing and Financing a Home) | - How to best use (and not use) credit cards.  
- Interest Rates on Personal Loans  
- Car Loans; Student Loans; Home Equity Loans  
- Leasing vs. Buying your next car  
- Evaluate what you can afford to borrow to finance the purchase of a home (bankrate.com)  
- Monthly payments and overall amortization schedule  
- 10 year ARM vs. 30 year fixed vs. interest-only – which type of mortgage is right for me?  
- How much can I borrow and what is this home worth? (Use the web!!)  
- Zillow.com, realtor.com for home price valuations  
- bankrate.com to estimate monthly payments and amortization schedule.  
- How can I make sure I’m “getting the best deal” with my mortgage?  
- The Economy Today: Is now a good time to buy a home? Buying vs. Renting – is one always better than the other?  
- Current Event Groups 1-4 - Class Presentations |
| 7 03-10    | 11 (Auto and Homeowner’s Insurance) and 12 (Health and Disability Insurance) |  
- Managing risk; factors that affect auto insurance premiums; homeowner’s and renter’s insurance  
- Auto Insurance: Main components, what to do when accident occurs  
- Homeowner’s Insurance: Main components. How to ensure highest value for your premium spent.  
- Which health and disability insurance should I have?  
- Disability Insurance (AFLAC!!): In my line of work, do I really need it?  
- Health Care Insurance Policies  
- Medicare; Medicaid; COBRA, HIPAA; Affordable Care Act  
- Update on Obamacare  
- Long term care insurance: What is it, and when is it most cost-effective to obtain?  
- Current Event Groups 5-8 – Class Presentations  
- Reminder: Pareto Project Workshop on 03-24; will need your 2-weeks of data brought to class.  
- Take Home Exam #2 Due 03/10- All course projects must be posted on the Sakai Assignments Folders by 5:30 PM. |
| 8 03-24    | 13 (Life Insurance) and Chapter 14 (Investing Fundamentals) |  
- Types of life insurance and determining the amount of life insurance needed  
- Psychology of Personal Finance: Can you openly and honestly discuss your own life insurance need?  
- Should you obtain “term” or “permanent” life insurance (or a bit of both?)  
- Types of Permanent life insurance; tradeoffs between return and risk  
- How does life insurance fit into my overall financial plan?  
- eMoney Case: How much and what type of life insurance should Katie and Jon obtain?  
- Personal Investing  
- When and how should you start “investing?”  
- How do you know your investing “risk tolerance?”  
- Overview of today's most popular types of investments (stocks, bonds, mutual funds, ETF’s)  
- Variable Annuities: Today's pension plan, and good vs. bad annuities. |

**Take Home Exam #3 Due - All course projects must be posted on the Sakai Assignments Folder by 5:30 PM.**
### Chapter 19 (Retirement Planning)

**Social Security:** When will I qualify, when can I get it, and can I count on it?
- Employer-sponsored retirement plans (defined-benefit and defined-contribution plans)
- Retirement plans offered by employers: 401(k), 403(b), Keogh Plan, SEP, IRAs, etc.
- Other retirement investments: Roth IRA, Annuities.
- Roth IRA or Traditional IRA (or — a mix)

**Using Excel and Time Value of Money:** Quickly project how much you actually need to save for retirement.
- eMoney case: How strong is Jon and Katie’s retirement outlook? What are their options for meeting their retirement goal?

### Chapter 20 (Estate Planning)

- I’m single; do I really need a will?
- Purpose of a will
- Other important estate planning documents: Living will, power of attorney, healthcare surrogate.
- Estate taxes; trust, gifts, and contributions
- Key provisions of today’s estate tax laws (federal and state)
- What key events and changes in my assets impact the review and change of my will?
- Famous people who died without a will

- eMoney Case: Advise Katie and Jon on how they can plan their estate to achieve their goals

Make a Will!

**Math Literacy Assessment make-up (this will be a different exam!!)**

### Chapter 21 (Integrating the Components of a Financial Plan)

- Budgeting, managing liquidity; personal financing; protecting your assets and income;
- managing investments; retirement planning; maintaining your financial documents

- **List at least 5 areas of your financial plan where decisions in one area impact the other**
- **How can I further improve my financial health?**
- eMoney case: Putting it all together: Katie and Jon’s comprehensive financial plan!

- 7 Common Denominators among Those Who Successfully Build Wealth!
- 50:30:20 Budget!
- Money Tips for College Students
- Principles for Young People!

**In-Class Summary Concept Project**

**Take Home Exam #4 Due - All course projects must be posted on the Sakai Assignments Folder by 5:30 PM.**

---

**P. Attendance:** Attendance is of critical importance. It is essential to keep up with the class material. Attendance will be taken in each class. If a student misses/will miss a class, then the student needs to send a courtesy e-mail message to the professor. **As stated earlier, attendance will count for up to 4% of your course grade!!**

**Q. Required:** Statistical software in Excel 2003 (or higher) or, for MACs, StatPlus/Analyst Soft as an alternative, is required for problems, related cases, and team projects. Reading assignments must be completed prior to each lecture. **Communication Devices:** No communication devices (cell phones, palm pilots, beepers, pagers, etc.) can be used in the classroom.
R. Assessment:
Posting of Grades: Please check MyRutgers for your final grades.
Assessment Policy:

</table>

Note: The thresholds for final letter grades will be re-scaled if a conventional standard seems unreasonable.

S. Academic Integrity: All students are responsible for locating, reading, and abiding by the University Policy on Academic Integrity for Undergraduate and Graduate Students. The policy is available on-line at http://cat.rutgers.edu/integrity/policy.html

T. Recommendations: Requests for recommendations must be made in writing after completion of the course.

U. Take Home Exams: All Take Home Exams are posted on Sakai under Resources. Take Home Exams must be handed in on time in their entirety.

Penalty: 10% for every grade component submitted late, with a max of one week. Submissions must be complete; no partial assignments can be submitted. Once the Take Home Exams are returned to the students, then late submissions cannot be accepted in order to maintain fairness for all students.

Note: Project due dates are tentative until confirmed.

V. Communication:
1. NETID Needed
Rutgers uses the Sakai system. In order to use this system, you must have a NETID and PW. A NETID is an account on one of the main systems at Rutgers (Pegasus, Eden, Andromeda or RCI).
- If you have a NETID, you can currently ensure that you will be able to login to the system.
- If you do not have a NETID, please use the following page to attain one: http://netid.rutgers.edu/
- If you have any problems, please contact your local RUCS Help Desk. You can reach them at help@nbcs.rutgers.edu or 732-445-Help

2. Sakai
To facilitate class learning, please access and print course documents needed for class from the course management system known as Sakai. Course documents are posted in folders under Resources.

Quick Start for Sakai:
https://sakai.rutgers.edu/access/content/public/quickmember.html
Sakai website:
http://sakai.rutgers.edu/portal
If you do not see this course listed, then the site in likely in the “More” dropdown box to the right of your tabs. You can rearrange the order of your sites or hide sites from previous semesters by using the Preference tool in My Workspace and clicking on the “Customize Tabs” action button.

W. CTAAR
The Center for Teaching Advancement and Assessment Research supports teaching and learning through a variety of areas. Free for students are software workshops in Excel, Word, PowerPoint, Access, etc. http://ctaar.rutgers.edu/workshops/ws_descr_IT.html

X. Student E-Mail and Phone Numbers:
a. A student can forward mail from his/her Eden/Pegasus address to a preferred e-mail address. Go to http://www.eden.rutgers.edu/tools.php and click on forwarding. Enter your NetID and PW. Then fill in your preferred e-mail address.

**Cautions:** Hotmail has problems with e-mails with attachments. Also, some corporations spam e-mails with attachments.
- If you have any problems, please contact your local RUCS helpdesk at help@nbcs.rutgers.edu

b. Students, also, have the responsibility to then inform the professor of any changes to their phone numbers (day and evening). Please use “37:575-250-06” in the Subject section to avoid being spammed. **Please sign your full name in all e-mail correspondence.**

**Please do not Reply All to the Instructors.** Otherwise, several members of the staff and instructors will receive your correspondence.

c. Please check your e-mail regularly, especially on the day of class, to learn if there are any changes in the class schedule, class requirements, or for other general announcements.

Y. **Study Groups:** Forming study groups will facilitate learning by keeping you focused, involved, and current in the course.

Z1. **Classroom Etiquette:** Common courtesy is expected at all times. Please turn off all cell phones and other communications devices during class. This facilitates efficient learning, best performance in the course, and timely completion of classes.

Z2. **Parking Impacts:** Special events may impact parking.

Z3. **Snow Emergency University/Campus Closings:** 732-932-INFO (New Brunswick);
[http://campusstatus.rutgers.edu](http://campusstatus.rutgers.edu)

**Note:** Details of the Take Home Exams can be found on Sakai in the Assignments Folder.
