Senior Seminar in Labor Studies helps connect the Labor Studies major to a career path. The course content, specifically, the required readings, will help students gain a better understanding of how organizational structures affect the nature and quality of careers. Students will assess personal knowledge, skills and abilities and gain insight into personal goals and objectives. A project incorporating informational interviews will be shared in-class via student presentations and will help establish preliminary professional networks to help the graduate connect with their field of interest. Two exams, assignments, written essays and class participation will combine to demonstrate the student's success in the mastery of course objectives.

**Please keep this in mind!**

SAMPLE PARAGRAPH FOR FINAL PAPER

(Introduction statement or supporting statement -->) Bolles states that networking is one of the best ways to secure employment. (What you discovered during interview -->) In my interview with Mr. Jones, when I inquired about networking, he said he also thought that it was an important element in gaining access to not only the interview, but to also successfully land the job (Bolles p. 75). ( <-- Cited Source) When I asked Ms. James' for an opinion on this, she stated that, in fact, she became aware of her current position through networking. In employing the principles of networking, I found that the three informational interviews could lead to possible future employment opportunities. In fact, during my interview with Ms. James', she mentioned that the sales department at her firm may be hiring a new management trainee.

Bill Denton believed that "face time" was important to prove your loyalty to the job (Hochschild p. 33). ( <-- Cited Source) Yet Vickie, the administrative mother, felt "face time" was insignificant. However, although Vickie felt her employees could work from home, she spent significant amounts of time on the job (Hochschild p. 40). ( <-- Cited Source) (Outcome or conclusion based on interview to support theory introduced above or within this finding -->) I found that in Mr. Loyal's law firm, most partners were required to spend an inordinate amount of time on the job, including weekends. Because I value spending time with my family, striving to become a partner in a law firm is something I would not consider.
