COURSE DESCRIPTION: This class will provide the basic outline for the multifaceted employment relationships in the entertainment industry. The class will illuminate the functions of all parties involved in the initial hiring and retention in entertainment. Thus, whether you are the talent, or representing the talent as a union, agent, or manager role or an employer seeking to retain the services of anyone in the entertainment field, this class is a must.

The entertainment industry in the United States is a multi-billion dollar enterprise. The business is comprised of a labor force as diversified as any other and in a constantly evolving field. Technological change has historically made employee relations in this field volatile. This course shall explore employee-employer dynamics of specific industries such as stage, radio, TV, and the big screen.

COURSE REQUIREMENTS: 1) final exam, 25% of grade, 2) midterm exam, 25% of grade 3) class participation, 15% of grade 4) negotiations project, 10% of grade and 4) assigned topic paper, 25% of grade.

The assigned topic paper will require each student to write a 5 to 10 page paper. The subject of the paper will be a labor union representing individuals in the entertainment industry. Students will be expected to provide a brief history of the union and to discuss a recent negotiation for a collective bargaining agreement. For example, the Screen Writer’s Guild had a strike during their last negotiations and is probably headed toward another strike. As such, you would discuss the issues which have led them to this discord.

The class project will consist of students being put into groups and each group being assigned the role
of either representing an actor or representing a studio and negotiating a contract of services. The group will be required to present the final contract and then explain their position to the class as if the class were either the actor they represented or the studio heads.

**BOOKS/READINGS:**

*Deal Making in the Film and Television Industry from Negotiations to Final Contracts, 3rd Ed.* by Mark Litwak

Additional readings set forth below will be available online.
