PARTICIPATION (14%)
Active learning is one of the most powerful tools for understanding complex concepts. Students can learn a tremendous amount from each other - you should feel free (and be prepared) to provide your comments, ask thoughtful questions, and share your own experiences with the class. Research shows that students learn more when they participate actively. For these reasons, participation is an important class component. As a class member, you are responsible for helping to create a positive, learning environment. This means sharing your own views and experiences, bringing in relevant current information, and in general contributing to our learning process.

Participation grade will be based on thoughtful and timely responses and replies to all Discussion Questions (120 points). Note all Discussion Questions must be answered by end of day Wednesday. Late submissions will be penalized.
