## Course Overview

This course will introduce and overview the major topics in Human Resource Management (HRM). HRM is a fundamental component of the competitiveness, effectiveness, and sustainability of any organization, as it influences who is hired, how they are trained, evaluated, compensated, and what steps are taken to retain them. In turn, HRM plays a critical role in predicting employees' behavior, attitudes, and performance. In other words, if an organization wants good people, it must practice good HRM.

## Class Materials

**Required Resource:** Interpretive Simulation – Interpretive.com

**Recommended Text:** Fundamentals of Human Resource Management. Noe, Hollenbeck, Gerhart, and Wright – 7th edition. ISBN: 1259852555

This course is delivered asynchronously in an online format. However, we will be utilizing the [Canvas](#) learning management system to access learning materials, post announcements, submitting assignments, communicating via the Inbox feature, and taking quizzes.

Note: Whenever anything is posted to this site, you will automatically receive a notification to your rutgers.edu email account. Checking that email account frequently is highly recommended as well.

## Grading and Course Requirements

Activity	Points	Percentage	Course Grade
Exams	400	90-100%	A
Simulation Activities	200	87-89.9	B+
Lecture Videos	140	80-86.9	B
<b>Total Points</b>	<b>740</b>	77-79.9	C+
		70-76.9	C
		60-69.9	D
		≤59.9	F

## Examinations

There will be 3 non-cumulative exams. You are responsible for ALL assigned readings scheduled before the exam, my lecture notes, handouts, and any other course material (e.g., articles, guest lecturers, videos, class activities). Please note that I will not be dropping any exam grades. However, your highest exam grade will count double towards your final grade in this course. *Each exam is worth 100 points, with your highest score counting twice, for a possible total of 400 points.*

## Exam Procedures

1. All exams will be done through Canvas online. You will have a 48-hour window to take each exam. Once the access code has been entered, you will have 1 hour, 20 minutes to complete the exam.
2. All exams are open book. You are allowed to use your notes and class materials during the exam. You are NOT allowed to use any help from other people or students. This will result in academic integrity charges brought against you.
3. Once the entire class has completed the exam, you may review your exam with me during virtual office hours.

**Make-up policy:** The dates of the three exams are noted on the course agenda. An exam grade of zero (0) will be assigned to any student who is absent without a legitimate excuse on the date of a regularly scheduled test. If I determine that a student should be allowed a make-up for a non-excused reason, there will be an automatic 20% penalty taken from the exam score.

## Simulation Activities

You will participate in a web-based HRM Simulation, which highlights the principles taught in the course and provides you with simulated real-world experience in making HR decisions and observing their impact on the firm. The class will be divided into 3-person teams (assigned in week 1) for this semester-long project. The HRM Simulation will require you to work as a team to develop goals and strategies, manage a budget and make a series of HR decisions throughout the semester, and hand in a final report upon completion of the simulation. *All students must register for the simulation by Jan. 28<sup>th</sup>.*

Once all your team members register for the simulation, you will be able to access our simulation “game” at: [www.interpretive.com](http://www.interpretive.com). Before beginning the simulation, your team is required to identify four goals and develop related strategies for achieving these four goals (using the “Goals and Strategies” form available as a PDF from the Simulation website). You must submit your completed “Goals and Strategies” document into Canvas by **Feb. 4<sup>th</sup>**. There will be eight (8) quarters of play corresponding to weeks 4 through 12 of the semester. Simulations for a given week will be opened for competition for a full week prior to being due. Submissions will be closed at 11:59 pm EDT on the date that they are due. There will be a practice round in which you can play and replay as many times as you wish in “benchmark” mode (i.e., against the computer). **When play officially begins on Feb. 5<sup>th</sup>**, you will be playing against each other in “direct competition” mode and weekly (quarterly) decisions are final once submitted.

## Point Distribution of Simulation:

The 200 points will be distributed as follows:

- Goals & Strategies = 15 points
- Final Industry Ranking = 25 points
- Critical Incident reports = 60 points
- Management Yearly Audit reports = 80 points
- Peer Reviews = 20 points

Final Industry Ranking (25 points): Upon completion of 8 quarterly plays, your team’s cumulative ranking within the industry (i.e., class) will be determined based on the Balanced Scorecard metric provided under the “Comparative Results” section of the simulation. That is, your teams are playing in

“direct competition mode” against each other. **Teams that are ranked in the top third of the industry will be awarded 25 points; teams that are ranked in the middle third will be awarded 20 points; and teams in the bottom third will be awarded 15 points.**

Critical Incident Reports (60 points): Within the quarterly (weekly) decision play, you will also be required to submit a response to six (6) HR-related *incident* that is described in the “Special” section of the Decisions tab of the simulation. *For each critical incident, your team needs to submit a 1 to 2-page report indicating your team’s response to the critical incident AND explaining your team’s rationale for your decision with regards to the critical incident.* The critical incident reports should be typed using **Times New Roman 12-point font, double-spaced, with 1” margins and be between one and two pages.** Incident reports can be submitted to the appropriate drop box on Canvas, and are due on the same days that decisions are due. The incident responses will be graded based on the quality of the rationale that is provided for the proposed incident decision (please see the grading rubric). Each weekly report is worth up to 10 points (x 6 weeks for a total of 60 points).

Management Audit Report (80 points): Upon completion of each “year” of the simulation, each team must submit a written self-audit report. This report should be typed using **Times New Roman 12-point font, double-spaced, with 1” margins and be between six (6) and eight (8) pages including all tables and graphs (title page and citations do not count in page length).** Your grade on the management audit report will be based on your ability to critically analyze your team’s strengths and weaknesses and on applying principles of human resource management to your simulation experience. Each report is worth up to 40 points (x 2 for a total of 80 points).

Peer Reviews (20 points): Following the submission of your yearly audit reports, you will also submit an individual evaluation of your team members. Peer review due dates are posted to the course schedule. If you fail to submit a peer review, you will receive zero (0) points, regardless of how your team members evaluated you. *Free riders are not permitted, and each team is free to identify team members that are not contributing to the simulation. It is up to you, as a student and team member, to provide proof of your contributions to the group. Those individuals will not receive credit for the team’s work!* Each peer review is worth up to 10 points (x 2 for a total of 20 points)

### **Lecture Videos**

A set of questions is embedded into each of the lecture videos. You will have until Saturday at 11:59 pm ET to complete the video lectures on the assigned topics for each week. Each question will be worth 2 points. For example, if you answer all five questions, but only get four correct, your score for that topic would be 8/10 (80%).

### **Extra Credit**

There may be opportunities throughout the semester. If so, I will make sure you are aware of them. ***Don’t count on extra credit to save your grade.***
