Course Description

This class will look at the key issues in the management of people, primarily in for-profit corporations in the United States. It will not teach detailed management techniques and methods. Instead, we will discuss theoretical concepts that will help us understand and analyze real world challenges in the changing workplace.

Key questions and themes include:

- What is work, what is a workplace and what is an organization?
- Why should organizations put people first for success and sustainability?
- How and why are organizations changing?
- What are the incentives in the workplace for workers and managers?
- What are the effects of new forms of work organization such as temping, freelancing and outsourcing on workers and organizations?

Course Requirements

Readings and Other Resources

There are no required books for this course. Readings will be posted on Canvas.

Assignments and Assessments

Exams	20 points	Midterm (Week 1 – 7): 10 points Final (Week 9 – 14): 10 points
Projects	20 points	Midterm (Week 1 – 7): 10 points Final (Week 9 – 14): 10 points
Short Assignments	24 points	4 @ 6 points each
Forums	32 points	8 @ 4 points each
Polls	4 points	4 @ 1 point each
TOTAL	100 points	

Exams

Worth 20 points (Midterm: 10, Final: 10)

Students are assessed on knowledge gained in weeks 1–7 and 9–13. Each exam consists of two short essay questions, each worth 5 points. Exams are timed.

Midterm and Final Projects

Worth 20 points in total

You will create a short video presentation summarizing two weekly topics from the class for the midterm and final project, respectively. Specific directions will be provided. Each video presentation is worth 10 points.

Short Assignments

Worth 24 points

Four short assignments, each 6 points

Short Assignment Essays should combine personal reflections with academic sources and evidence to create a more rigorous and insightful piece. It involves critically analyzing experiences, connecting them to relevant theories and research, and using this combination to draw meaningful conclusions and show personal growth. You need to be sure to cite the readings and videos from the week (you do not need to reference all the readings, but enough to support your thoughts). Throughout the semester, you will write 4 short evidence-based reflection essays, each of which is about 600-800 words. Specific directions for each paper will be provided.

Forums

Worth 32 points

Forums 1 – 8 – each 4 points

Students are organized into discussion groups of 6 – 10 members.

For Forums open Tuesday; Closes Monday 11:59 pm. **(No late submission will be accepted)** Each week, you are expected to post one original response to the weekly prompt and reply to at least two of your classmates' posts. Your initial post should be 150–250 words and submitted by Thursday at 11:59pm. Replies should be between 75–150 words each and are due by Monday at 11:59 pm.

When writing your posts, use complete sentences and maintain a college-level writing style. Support your points with examples, evidence, or references when appropriate. A strong reply goes beyond agreement; it might ask a follow-up question, offer a new perspective, or respectfully challenge a viewpoint. Avoid short or vague comments like "I agree" without explanation. Posts should be respectful and on-topic. Because the forums are in real time, you cannot complete the late ones.

Polls

Worth – 4 points

Four polls, each 1 point

Course Policies

Message Checking Policies

Messages Sent to Instructor's Canvas Inbox

Unless students receive advance notification, the instructor will check his Canvas Inbox by 18:00 pm ET on regular workdays. (This excludes Weekends and Holidays) If a student sends a comment or question, the instructor will address the contents of the message within 24 hours.

Messages Sent to Student Canvas Inbox

It is the responsibility of the student to regularly check for incoming course messages. Messages are always sent through the Canvas messaging system. Students will receive a notification when a new message has been sent to his/her Canvas inbox. Forgetting or being unable to check for messages in one's Canvas inbox is not an excuse.

Weekly Messages

A weekly message will be uploaded into the announcements area of the course Tuesday mornings. Reviewing the weekly message is a required activity. Weekly Messages present timely information on course activities/assignments and content.

Taking Exams and Forum Engagement

Exams may be taken anytime between the open and close day and time. Exams must be completed by 11:59 pm on the close date. Once a student logs into the exam area, the quiz must be completed in one sitting.

All students are responsible for offering 3 comments in forum discussions. When a student does not participate fully or at all by 11:59 pm on the day the commenting period closes, points cannot be made up.

Late Submission Policy – Short Assignments

Assignments can be submitted up until 11:59 pm on the stated due date with no penalty. Late assignments will be accepted. But your grade for a late assignment will be lowered by 20% for each day past its due date.

Things happen. When you don't have to attend a class session in person, it's easy to let a situation in your personal or professional life get in the way of online course work. In addition, remember the first rule in computer use: the computer or Internet connection will act up at the most critical time. Because "things happen" it's a best practice not to wait until the last minute to take the quizzes, submit a Forum comment, or upload a Portfolio or writing assignment.

Contact the Canvas 24/7 toll free helpdesk if you experience any technical problems that prohibit you from completing an assignment. Technical problems are not a valid excuse for missing a due date. Contact information is located on the front page of the syllabus and in various locations in the course. (Course Homepage, Course Tools page.)

Grading

Each assignment is worth a certain number of points as identified in the assignments section of the syllabus. Highest number of points a student can earn is 100. Points accumulate to determine final grade.

Decimal points will not be rounded. For example, your final grade is B+ if you earn 89.99. It is your responsibility to monitor your grade and take steps to improve it.

A	= 100 – 90
B+	= 89.99 – 85
B	= 84.99 – 80
C+	= 79.99 – 75
C	= 74.99 – 70
D	= 66.99 – 60
F	= 59.99 – 0

Students with Disabilities

To receive consideration for an accommodation, students with a disability must send their letter of accommodation to their instructors and discuss the needed accommodation(s) as early in the semester as possible. For more information regarding the process of applying for a letter of

accommodation:

Use of "AI" in this course

AI tools can be a powerful resource for learning, especially when used thoughtfully. In this course, you are welcome to use AI to help you:

- Brainstorm ideas and topics
- Create outlines or mind maps
- Explore different ways of approaching a question or problem
- Generate study questions or summaries of concepts

However, the actual writing you submit—whether it's a paper, discussion post, or other written assignment—must be your own original work. Think of AI as your brainstorming partner, not your ghostwriter. If you use AI at any stage, be sure to:

- Indicate which AI tool(s) you used
- Briefly explain how you used it (e.g., “used ChatGPT to generate a list of potential subtopics, then created my own outline”)
- Revise and adapt any AI-assisted material into your own words and ideas

By using AI in this way, you can take advantage of its strengths—speed, variety of ideas, and fresh perspectives—while still developing your own voice, critical thinking, and writing skills.

Example of Proper AI Use Disclosure

For this assignment, I used ChatGPT to generate a list of potential subtopics for my paper on work and life. I selected three that I found most relevant, revised them, and created my own outline. All writing, analysis, and examples in the final paper are my own.

Schedule by Week

Week 1 Introduction (Sept.1-Sept.7)

- Go over the syllabus and familiarize yourself with the course requirements.
- Take some time to learn basic functions on Canvas. Make sure to resolve any Canvas-related issues for your and the instructor's convenience. Watch the instructional videos about the use of Canvas.

- Nike Sweatshops: Behind the Swoosh
<https://www.youtube.com/watch?v=M5uYCWVfuPQ>

Assignments

- Forum 7: In his columns, Nicholas Kristof argues that while sweatshops seem exploitative, they are often a "dream" for the extremely poor because the alternatives—like scavenging in trash dumps—are far worse. He suggests that these factories provide a steady income and act as a necessary historical stepping stone toward a country's industrial development. However, critics counter that this logic ignores the human rights of workers and allows wealthy corporations to profit from dangerous conditions and "poverty wages." In your opinion, are sweatshops a helpful or harmful force for poor people in developing countries?
