Overview

This course is designed to provide managers with the tools necessary to effectively lead individuals and teams in today's complex organizational climate. Through role play, group exercises, discussion, case studies, video and reading; students will develop their leadership style and capability to supervise, motivate, build teams, manage group dynamics, communicate effectively, and deal with conflict. This course addresses key dimensions of leadership behavior: personal integrity, self-knowledge, vision, communication, organizational competence, and empowering people and teams.

Leadership skills can be learned, most people are not *born leaders*, as the myth would have it. (*Myth: leaders are born, not made.*) Everyone, at one time or another, has had the opportunity to be leader.

Many renowned leaders become known not so much for skills and knowledge, but for their ability to apply those skills and knowledge when specific situations arose which required them.

It is also important to know the difference between management skills and leadership skills, and to separate them. Many managers are good at management but are not leaders (the converse is sometimes also true.) Whereas managers' tasks are more 'control' oriented, leadership skills are more involved with such things as *inspiring followers, vision-creation, and abilities to listen, learn from experience, communicate well, and assert themselves.*

However, do not confuse the idea that managers cannot be leaders, they of course can be, but to be a manager-leader means enhancing what are considered the usual manager routine/protocol skills.

Clearly the building of relationships is also critical to the leadership role, as is *building competence and credibility*. Leaders also deal with different aspects of *power and influence* than managers do, and their *values* may differ from those of control-based managers. Some leaders are likely to be more individualistic and stand out more than others, whereas others may be more conservative and relate more strongly to 'the common person, yet still be acknowledged for their leadership effectiveness.

The ways in which leaders reason things out may often be different from those of managers whose work is largely based on following well-established tasks, routines, and methods. In this course we will explore most of the aspects of what is described above and will aim to do so through hands-on experiences.

Learning Objectives After completing this course, the student will be able to:

Labor Studies and Employment Relations Department:

- Work productively in teams, in social networks, and on an individual basis.

School of Management and Labor Relations:

- Demonstrate an ability to interact with and influence others in a professional manner, and to effectively present ideas and recommendations.

Course Learning Objectives: *At the end of the course, students will:*

Leadership in the Workplace

Fall 2026 pg. 1

- Be able to define and state the differences between manager and leadership skills.
- Demonstrate leadership through course experience, discussions, and individual journals.
- Understand the idea that 'leaders and followers are ambiguous and that followers may be likely candidates for leadership roles.
- Through readings, we begin to specifically define leadership skills and relate to them personally either through direct observation(s) or personal and work experience(s)
- Develop insight and understanding of their own potential(s) for leadership, as well as attitudes and behaviors which drive their development as leaders within their own organization(s), networks, and other activities.
- Demonstrate understanding of leadership skills as related to individual personal skills.

Course Expectations

Conduct:

As a diverse community of learners, students must strive to work together professionally in a setting of civility, tolerance, and respect for each other and the instructor. Rules of behavior include but are not limited to the following:

- Conflicting opinions among class members are to be respected and responded to in a professional manner.
- Having a "healthy" and respectful disagreement with others is encouraged; we learn through other voices.
- There are to be no offensive comments, language, or gestures.
- Students are expected to exhibit an appreciation for multinational and gender diversity and to develop management skills and judgment appropriate to such diversity in the workplace.

Assignments: <please review Canvas calendar for due dates>

- Complete all assignments on time; connect with the instructor to review/clarify requirements in a timely manner.

Academic Integrity

All students are required to read the Rutgers Academic Integrity Policy. Plagiarism will not be tolerated. All material (sentences, paragraphs, etc.) taken from another source must be cited. No exceptions.

Plagiarism or other violations of academic integrity. These are taken very seriously by the professors and if there is a question about your work, it will be reported to Rutgers Academic Integrity Unit. Please review the policy now: [Academic Integrity at Rutgers Links to an external site.](#)

You can use ChatGPT, Grammarly or other generative AI if you cite the specific app and explain how you used it in a footnote at the end of a paper, take-home exam, initial post in a discussion etc.

Please be aware that these tools sometimes make things up, have factual errors, or create bland, unoriginal answers. You are responsible for using your own original thought and correcting/revising what is produced by these tools if you do use them.

Citing Requirements: Author: OpenAI Year: [Year of the model's release or last update, e.g., 2021] Title: ChatGPT (Version 3.5) URL: [Include the URL where the model is publicly accessible, if applicable]

The professors reserve the right to use an oral exam to replace any quiz or assignment for an individual student at any point in the course.

Course Outcomes:

1. Leadership in Teams: Given an organizational situation, identify strategies to develop, maintain, motivate, and sustain self-managed teams using concepts, theories, and techniques of team leadership.
2. Collaboration in Teams: Given a case study or leadership situation, collect, assimilate, disseminate, and maximize the views of team stakeholders to reach defensible goals with minimal conflict.
3. Conflict: Given an organizational situation that requires interpersonal or interdepartmental action, identify situations of conflict, diagnose the impact of a variety of behaviors, and develop a plan for conflict resolution using evidence-based methods.
4. Ethics: Given an organizational setting, identify ethical and dilemma-resolution practices, and make evidence-based decisions that integrate personal, social, and corporate responsibility.
5. Communication: Communicate verbally and in writing to individuals and groups in a concise, clear, organized, and well-supported manner using formats and technology relevant to the organizational context.
6. Motivation: Given a leadership situation, identify workplace commitment theories to incorporate influences and power as a leader to motivate organizational stakeholders.
7. Research: Given an organizational need to evaluate and defend its actions or potential actions; select, analyze, and apply the assessment techniques, research methods, and/or analyses needed to evaluate and defend those actions based on evidence.
8. Knowledge and Understanding of the Field: Demonstrate competency in identifying and integrating the major concepts, theoretical perspectives, historical trends, and key figures in the field of organizational leadership.
9. Change: Evaluate the impact of change on organizations, organizational members, and other stakeholders and apply appropriate change models and theories to facilitate successful change.
10. Global diversity: Analyze and evaluate the involvement of diversity in leadership issues, with special attention to the implications of diversity for individuals, organizations, and societies.
11. Interpersonal Effectiveness: Achieve personal development and demonstrate positive relationship skills via effective communication, respect for others, and awareness of their impact on others.

Reading, Audio/Video Assignments

Students are required to review textbook chapters, along with videos, articles, and other required reading.

All required reading (articles) is available on the course shell, or a link provided on the course shell.

Audio/Visual

Students are required to watch instructor generated video presentations as well as review weekly videos. All audio and video material are provided through links within the course shell.

Forum discussions: Students are required to engage in self-reflection and critical thinking on all required forums. The assignment is then shared with the learning community members and discussed.

Overall assessment (forums, individual projects, course project) involves whether the student has:

1. Grasped the content of required reading and audio/visual assignments.
2. Provided personal meaning and/or developed new perspectives on course topics.
3. Engaged in critical thinking by considering course content in relation to current events, past personal or work experiences and opportunities for professional growth.

NOTE: Students can share a one-page outline with the instructor anytime during the semester for review/ comment.

How to contact the instructor

If you have questions related to the course content such as clarification on assignments, projects, discussions, course activities, post your question in the relevant week's "Wrap-Up" Discussion forum. If you send a comment or question, I will respond within one business day. If your inquiry is regarding your grades or late assignment

submission, or any other personal reason that may impact your learning and you need to inform me, please **email me through Canvas Inbox feature**. Please *do not* post inquiries of personal nature in the Discussion Forums.

Note: Please **do not** use your personal email account for any Rutgers and course-related correspondence. Messages sent to and from your personal (non-Rutgers email account) may end up in a Spam folder, or get hacked, delaying response to your inquiry. Furthermore, if your personal email account provider's server goes down or you encounter technical problems, Rutgers IT Helpdesk will not be able to help you. More importantly, it is the [University's Policy](#) that you do not use your personal email for Rutgers related correspondence.

Knowledge of Theory, Practice and Application

The knowledge of theory and application area reflects the goal for SMLR programs to ensure that students learn the key theoretical and foundation areas of study in their domains and realize opportunities to apply that knowledge to practice situations.

Theoretical Perspectives - Demonstrate an understanding of relevant theories and apply them given the background context of a particular work situation.

- Demonstrate an understanding of the practical perspectives, theories, and concepts in their field of study.
- Evaluate and apply theories from social science disciplines to workplace issues.

Understanding Context - Evaluate the context of workplace issues, public policies, and management decisions.

- Analyze the degree to which forms of human difference shape a person's experience of and perspectives on work.
- Analyze a contemporary global issue in their field from a multi-disciplinary and intersectional perspective.
- Analyze issues related to business strategies, organizational structures, and work systems.
- Analyze issues of social justice related to work across local and global contexts (LSER)
- Analyze issues related to the selection, motivation, and development of talent in a local and global context (HRM)

Application – Demonstrate an understanding of how to apply knowledge necessary for effective work performance.

- Apply concepts and substantive institutional knowledge to understanding contemporary developments related to work.
- Understand the legal, regulatory, and ethical issues related to their field.
- Develop human resource management functional capabilities used to select, motivate, and develop workers (HRM)
- Understand the internal and external alignment and measurement of human resource practices (HRM)

Professional Development –

Professional Development – Demonstrate an ability to interact with and influence others in a professional manner, and to effectively present ideas and recommendations.

- Develop effective presentation skills appropriate for different settings and audiences.
- Develop career management skills to navigate one's career.
- Develop capabilities to work and lead in a multicultural and diverse environment.
- Work productively in teams, in social networks, and on an individual basis.
- Develop cultural agility competencies.
- Demonstrate lifelong personal and professional development skills.

Special Needs Accommodations

Rutgers University welcomes students with disabilities into all the University's educational programs. In order to receive consideration for reasonable accommodations, a student with a disability must contact the appropriate disability services office at the campus where you are officially enrolled, participate in an intake interview, and provide documentation: <https://ods.rutgers.edu/students/documentation-guidelines>. If the documentation supports your request for reasonable accommodations, your campus's disability services office will provide you with a Letter of Accommodations. Please share this letter with your instructors and discuss the accommodation with them as early as possible. To begin this process, please complete the Registration form on the ODS web site at: <https://ods.rutgers.edu/students/getting-registered>

Use of Artificial Intelligence (AI)

Condition for Use

AI is not permitted on any graded assignment in this course unless explicitly and specifically states otherwise. This applies to all written work, analyses, reflections, discussion posts, and exams. Permitted uses may include one or more of the following:

- Brainstorming or generating an initial list of ideas to react to
- Editing a completed draft for grammar, clarity, or flow
- Generating an outline structure to critique or revise
- Checking citations or formatting

Condition for Non-Use

All submitted work must represent the student's own original thinking, written in the student's own words. AI may not be used to generate, structure, draft, revise, or summarize any portion of submitted work. You must be able to explain and defend all submitted work in your own words. If asked to discuss your work in class or in a follow-up conversation, your explanation must reflect genuine understanding.

Think of AI the way you might think of a grammar checker: a useful tool for refining work you have already done, not a substitute for doing the work. Your ideas, analysis, and voice are what this course is designed to develop. They are also what will matter to employers, colleagues, and communities long after you have graduated. Your own judgment and voice will be assessed.

When using AI, you are responsible for:

- The accuracy and quality of all submitted work, regardless of how it was produced
- Verifying AI output and applying your own analytical judgment before submitting
- Disclosing which tools, you used and for what purpose for every submission
- Meeting course standards — not an AI output submitted assignment
