1. Course Description

The trend of business internationalization has been exponentially increasing since the last century. This is demonstrated by the growth of the number of enterprises conducting business across the national borders of their headquarters, the amount of foreign direct investment (FDI) and the value of trade between countries.

Although it is hard to estimate, there are more than 82,000 multinational enterprises with more than 810,000 affiliates operated worldwide. Those multinationals employ around 80 million. Moreover, in 2016, the global FDI reached \$1.75 Trillion. The global FDI is projected to continue its growth over the coming years. Furthermore, in 2016, exports of merchandise and commercial services reached around \$21 Trillion – around 27% of the World’s GDP. As a rough estimation, a total of 60-70% of the international trade takes place within the same multinational groups.

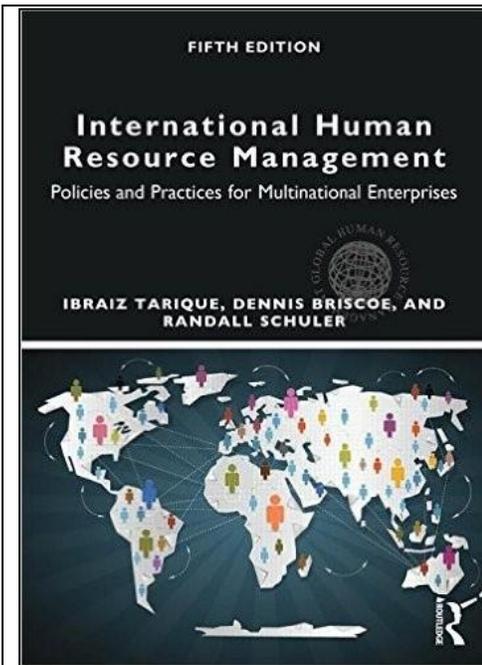

Based on the preceding figures, organizations are internationalizing their operations aggressively – some are even being born as a global enterprise. This trend has a direct impact on the HR function. HR professionals are expected to plan and manage a nationally and culturally diverse workforce. Moreover, they are expected to manage migrant workers and international assignees at each geographical location, in addition to its local employees.

Therefore, this course aims at clarifying global HRM practices. To begin with, the course displays the drivers of business internationalization and the levels of corporate global integration. Then, the course outlines the structural alternatives for multinational enterprises and the cultural/national and legal considerations to account for. Afterward, the course addresses strategic international HRM and the employment cycle within an international context.

Moreover, it is useful to read the New Brunswick Graduate Catalog in order to know your rights and obligations at: http://catalogs.rutgers.edu/generated/nb-grad_current/pg43.html. The following table lists the assessment methods and their weights:

Method	Percent
Class Participation	10%
Exam One	20%

Individual Project	20%
Group Project	30%
Total	100%

The following table lists the Grading and Point System assigned by the university:

A. Attendance & Participation

Just by attending and actively participate in the assigned sessions you earn up to 10% of the final grade. Each missed class results in losing significant points – unless proper justification is provided. Please refer to the attendance policy to familiarize yourself with the recognized grounds for absences. Attendance will be monitored through attendance sheets only.

Also, students are expected to actively participate in class. In addition to earning points, students will have the opportunity to add their input, share experiences and learn from others. Points are gained through attendance and providing insightful contributions. Points are lost for frequent absenteeism, being unprepared and misconduct during class. Therefore, you are expected to be well prepared before class sessions through reading the required readings and preparing yourself for discussions.

Attendance is taken through Attendance Sheets that you have to sign in class.

B. Exams & Make-up Policy

There are two exams with equal weights – each contributes up to 20% of the final grade. Both exams are take-home case studies. The exams submission dates are fixed and noted in the course schedule. You will receive the case study at least one week before the submission date, and you have the opportunity to receive formative feedback before the final submission. If the examination date was canceled, then the submission date will be automatically the next regular session. The exams are meant to be based on individual effort, so please refrain from consulting your colleagues for answers. Also, note that exams, like any written document, need to be uploaded on Sakai, and they will be checked for plagiarism. Thus, the work needs to be original, and when you are utilizing external references, you need to cite in-text appropriately and provide a reference list.

Make-up Policy

Again, the dates for each of the two exams are noted on the course schedule. An exam grade of zero (0) will be assigned to any student who fails to submit on time. Legitimate excuses include illness requiring medical attention (verified with a note from a doctor), an emergency situation (verified when applicable), or for a reason that is approved by the instructor. The instructor's approval should be attained at least one week before the exam date.

C. Individual Paper & Presentation

Project Description & Performance Guidelines

One of the subjects that this course will focus on is the impact of culture on business and HR practices. Thus, this project aims at attaining an in-depth understanding of various cultures and comparing them with the US culture. Each student will pick one country that is different from the countries chosen by others in order to cover as many cultures as possible. This project will account for up to 20% of the final grade.

The project consists of a paper and presentation. The paper size should not exceed 2000 words and the presentation-time is 15 minutes. Both should cover the following:

1. An overview of the country.
2. A discussion of the cultural layers (surface, hidden and invisible layers).
3. A discussion of the cultural dimensions (based on Hofstede). This should include the dimension scores and an explanation of why the country attained the scores on each dimension.
4. A comparison between the cultural dimensions of the chosen country and the United States.
5. Based on the preceding points, a discussion of the business culture and how it differs from the United States.
6. Note that the paper should be well references (In-text referencing and a reference list).

D. Group Paper& Presentation

Project Description & Performance Guidelines

The course will provide an extensive overview of International HRM. However, when businesses internationalize, the HR professionals should familiarize themselves with the specific context of the targeted market. Those projects aim to familiarize students with various national contexts from different regions, thus further broadening the course content. Moreover, the project aims to strengthen your teamwork, presentation, analytical and written communication skills. Students will have the opportunity to self-select each other and form teams. More so, each team will have the freedom to choose one national context from the below-mentioned countries. However, if you fail to find a team or choose a case study by the time limit assigned to the course schedule, then the instructor will select a team to join on your behalf. This project will account for up to 30% of the final grade.

Each team will be covering one distinctive country, thus no two or more teams will be allowed to cover the same case study. Therefore, the sooner you decide on the country, the more likely it will be assigned to you. The following is the list of countries/case studies:

- I. **Western Europe:** Germany, Italy, Netherlands, United Kingdom
- II. **Scandinavia:** Denmark, Finland, Sweden
- III. **Central & Eastern Europe:** Bulgaria, Poland, Russia
- IV. **Mediterranean, Middle East, and Africa:** Ghana, Uganda, United Arab Emirates
- V. **Asia and the Pacific Rim:** China, India, Indonesia, Singapore
- VI. **America:** Canada, Chile, Mexico

The project consists of a paper and presentation. The paper size should not exceed 3000 words and the presentation's time is 20 minutes. Both should cover the following:

1. An overview of the country
2. A discussion of the business climate. This includes:
 - A. Major favorable business-climate factors that encourage multinationals to start a business in this country. (At least 8 to 10 factors that are well developed).
 - B. Major unfavorable business-climate factors that discourage multinationals to start a business in this country. (At least 8 to 10 factors that are well developed).
 - C. Any additional facts or factors that multinationals should know about before starting their business in this country).
4. A discussion of HR-specific challenges that a multinational might face when conducting business in this country. (At least 8 to 10 challenges that are well developed). Please remember that those challenges should be specific to the country and not general HR challenges.

Important Notice: Group Projects are subject to peer assessment, and if a student does not contribute equally to a project compared to other group members, then the student may receive reduced or no points for the project grade.
