Final Exam: TBD

Instructor:
William Brucher, PhD
Email: wbrucher@work.rutgers.edu
Phone: 207-653-2083 (cell) 848-932-5586 (office)
Office: Room 153, Labor Education Center (LEC), Cook/Douglass Campus, 50 Labor Center Way, New Brunswick NJ 08901
Office hours: Mondays 2:00 pm – 3:00 pm and Wednesdays 11:00 am – 12:00 pm or by appointment.

Course Overview: The course is designed to give you an overview of various aspects of labor and employment relations, including the perspective of working people and their labor organizations. We will also study the changing nature of work, workers and workers’ institutions and organizations; the impact of technological change, the economic cycle, social class, immigration, race, ethnicity and gender; the role of government in labor policy; the history of unions, the role of unions in politics and challenges the labor movement faces today; and collective bargaining and workers’ rights issues.

Class will include lectures, small group discussions, simulations, in-class assignments, and media presentations. Students are encouraged to freely express their views. Respect for the appreciation of different viewpoints will be a guiding principle in this course. Note: this syllabus may be changed or modified as the course proceeds.

Textbook: Stephen Sweet and Peter Meiksins. Changing Contours of Work: Jobs and Opportunities in the New Economy, Second Edition. Sage 2013. The text is available at the Barnes and Noble Bookstore on the College Avenue Campus. IMPORTANT! The second edition of this book is quite different from the first – it has a new chapter and other chapters have been renumbered.

All readings, except for the textbook, are available on Rutgers Sakai, which you may access at http://sakai.rutgers.edu. To log on, enter your Rutgers ID and password in the upper right hand corner. Click on the tab: 37:575:100:03 and then click on modules on the menu on the left hand side of the page.

The syllabus, schedule, and assignments are subject to change as the course evolves.

Course Requirements
1. Read entire syllabus and make sure you understand it. This is your contract with the instructor.
2. **Be prepared for class.** Always read the material assigned for a class before the class. For instance, complete the reading for Week 2 before our class meets on September 10, complete the reading for Week 3 before our class meets on September 17, etc. **Bring the reading material to class with you** in case you need to refer to it (for instance, for an open-book quiz or for a discussion). Check your email regularly for class announcements.

3. **Be present and be on time.** Students are expected to attend all classes; if you expect to miss one or two classes, please use the University absence reporting website [https://sims.rutgers.edu/ssra/](https://sims.rutgers.edu/ssra/) to indicate the date and reason for your absence. An email is automatically sent to us. Please note: Our attendance policy is that students begin with an “A” for attendance. However, the grade for attendance will decline each time a student is absent, late, or leaves early. If you are late or leave early, you will be charged with ½ class absence. If you have a legitimate reason for your absence, lateness or need to leave early, it must be provided to us in writing in advance or immediately after the occurrence. Even excused absences must be reported via the University absence reporting website indicated above.

4. **Participate in discussions and group activities.** Students will be divided into groups for breakout sessions and projects. The teaching assistants and us will supervise the groups. Your participation in these group situations goes to your participation grade. Explain your views. Ask questions. Listen – don’t monopolize the discussion or ignore other views. Do your share of the work in simulations and in-class group activities. Texting, talking on your phone, FB and Twitter are prohibited in class (unless part of the group activity).

5. **Take careful lecture notes.** You should obtain lecture notes from another student if you miss a class. These are not provided by the instructors or by the teaching assistants.

6. **Academic Integrity:** Academic integrity requires that all academic work be the product of an identified individual or individuals. Joint efforts are legitimate only when the assistance of others is explicitly acknowledged and permitted by the assignment. Ethical conduct is the obligation of every member of the university community, and breaches of academic integrity constitute serious offenses. Students must assume responsibility for maintaining honesty in all work submitted for credit and in any other work designated by the instructor of this course. Students are also expected to report incidents of academic dishonesty to the instructor or dean of the instructional unit. For more information on the Rutgers University Academic Integrity Policy, see [http://academicintegrity.rutgers.edu/files/documents/AI_Policy_2013.pdf](http://academicintegrity.rutgers.edu/files/documents/AI_Policy_2013.pdf)

The instructor for this course holds the copyright to the course teaching materials, including lecture slides, discussion questions, exams, and assignments. Students may not copy or distribute this material without the permission of the instructor. Unauthorized distributions of course materials are serious offenses. For more information on the Rutgers University Copyright Policy, see [http://policies.rutgers.edu/sites/policies/files/50.3.7-current.pdf](http://policies.rutgers.edu/sites/policies/files/50.3.7-current.pdf)

**Evaluation**
For purposes of grading, there are five components of the course:
- Family Interview Exercise (5%)
- Class preparation, attendance and participation (20%)
  - Attendance will be taken in class and participation in group activities and discussions will be tracked.
- Written assignments (20%)
There are two written assignments for this class. The first is a short response paper on social class and economic inequality and the second is a final reflection paper on course themes. Each paper is worth 10% of your course grade.

- Collective bargaining exercise (10%)
  - The entire class will participate in a collective bargaining exercise spanning a couple of weeks. Students will be assigned to a union team or to a management team and will be required to negotiate a contract by a set date and time. You will be graded as a team on this exercise.

- Exams (45%)
  - There will be two (2) exams (a midterm and a final) that are predominantly “objective” – a combination of short-answer, objective, and short essay items given in class. Both are closed book but you may bring one note card or sheet of paper no larger than 4x6 inches with notes on it. The final exam will be similar in nature to the first exam but cover material since the first exam. The midterm exam is worth 20% of your course grade and the final exam is worth 25% of your course grade.

**Learning Objectives:** This is a social science course. The following SAS learning objectives are particularly relevant:

**h. Understand the bases and development of human and societal endeavors across time and place.** One learning objective involves understanding how U.S. workers have reacted to the changing nature of work, to their class position in American society, and to particular contingencies like immigration. You will gain an overview of the history of the American labor movement, how it fits into a global context, and how race, ethnicity and gender affect workers. You will demonstrate knowledge through writing assignments and examinations.

**m. Understand different theories about human culture, social identity, economic entities, political systems, and other forms of social organization.** A second objective involves understanding theories regarding the relationship between economic organization (e.g., the extent of economic markets and corporate structures) and the type of worker organization and public policy responses that are needed to improve the lives of workers. You will demonstrate this knowledge through writing assignments and examinations.

**n. Apply concepts about human and social behavior to particular questions or situations.** A third objective will be for you to apply these theories to current policy debates. You will demonstrate this through participation in class debates and through participation in a collective bargaining exercise based on current situations.

**Unit I: The Situations Facing Working People**

Most people have to work. Work shapes our lives and our conceptions of self, and at the same time it provides us with income. When work is insecure, low-paid, or we are not accorded dignity on the job, we suffer. On the other hand, when work is rewarding, it enlarges our capacities, allows us to connect to others, and enables us to contribute to the community at large.

In this unit, you will have a chance to ponder your family's history of work, consider how work has changed in the last 150 years, and explore the relationship of work and social class. A major topic is the prevalence of economic inequality in the United States today.

Unit II: Diversity, Work, and Employee Rights

Employment law is the fundamental law of the workplace. It is essential for you to know something about your rights at work, or lack thereof. And obviously, future managers need to recognize their own rights and how they can, and cannot, treat employees.

Employment law is mutable—it has changed in the past and may change in the future. One of the biggest changes in American employment law occurred in the 1960s in the face of
demands for greater equality by race, color, national origin, religion and gender. Employment opportunities for people of different races and national origins have become more equal under the law since then, but racial and ethnic divisions and discrimination still persist throughout the workforce.

Gender also matters for employment outcomes, although again, the workplace is much more equal today than it was in 1964 when the Civil Rights Act was passed. As more women have entered the workplace on a full-time basis, families are increasingly juggling the demands of two (or more) jobs along with the need to care for their families.

Union membership grew rapidly in the 1930s-1950s. Collective bargaining between unions and employers in major industries helped raise the standard of living not only for union members, but also for the entire workforce. For the past 35 years, however, the labor movement has been in steep decline in the U.S.
In this final unit for the course we will try our hand at collective bargaining during an in-class simulation. We will also explore the reasons why the labor movement has been in decline, as well as some of the newest and most innovative efforts on the part of unions, worker centers, and community organizations to organize workers in the ever-changing economy. The course will end with a discussion of public policies that could reshape the future of work.

November 10: Unions 101  
- “Union knowledge” in class quiz and discussion.  
- Presentation on the structure of the labor movement in the U.S. and New Jersey.
