COURSE DESCRIPTION:

This course begins with the European exploration and colonization of North America and ends in the late nineteenth-century with the Industrial Revolution in the United States. Course themes include bound, contract, indenture, and slave labor systems of early America; the culture of work and community of apprentice, journeymen, and master craftsmen in the world of the artisan's republic; the rise of merchant capitalism and the emergence of wage labor; the changing organization of work from handicraft to factory; workers' collective responses to technology, managerial control, and industrialization; and the impact on the lives of workers and those who transformed the United States into the world's preeminent industrial power.

LEARNING OBJECTIVES

This class relates to the overall objective of a liberal arts education in the social science area. "A Rutgers SAS graduate will be able to:"

- Understand the basis and development of human and societal endeavors across time and place. *Throughout this course, you will gain an understanding of the rise and decline of various systems of coerced labor in pre-capitalist times in the American colonies and the parallel development of an emerging market economy in the United States and its system of wage labor. You will demonstrate this understanding through written work and class discussion.*
- Understand different theories of human culture, social identity, economic entities, political systems, and other forms of social organization. *The nation underwent profound economic, social, and political changes as it developed from an economy built on agriculture to one built on manufacturing. You will understand the changing nature of work, and the changing conditions, experiences, responses, and conduct of working people from the conflict between the free-labor North and the proslavery South to workers who sought to share in the nation's political ideals during the Industrial Revolution.*

This course is designed to strengthen your skills in the following areas:

- understanding the evolution of work and worker movements in the United States from the Colonial Era, Early Republic, and Industrial Era;
- ability to identify and evaluate the main arguments in a historical text;

- ability to make an argument (written and oral) using historical and contemporary evidence;
- understanding the evolution of the fundamental laws/institutions governing employment relations;
- understanding and respect for people from diverse cultures and backgrounds

COURSE REQUIREMENTS AND GRADING

Class Attendance (15%) and Participation (15%)

Your grade for class participation will be based on your active involvement in class discussion, small group work, in-class writing assignments, and overall engagement with the course material. Be sure to read carefully all required readings before the class meets so that you will be prepared to answer questions and discuss each of the readings in class.

You are expected to bring a copy of the assigned readings to class and participate actively in small group and larger class discussions. Periodically, you'll be asked to complete a peer group evaluation form to honestly evaluate the work of other students in your group.

Class participation includes active, respectful listening as well as talking. Cell phones and other electronic devices must be turned off during class. This includes laptops and tablets. If you use any of these devices during class, you are distracting yourself, the instructor, and the students around you.

You are expected to attend class regularly. An attendance sheet will be passed out at the beginning of class; it is your responsibility to sign the sheet. Be punctual and plan to stay for the entire class.

If you must miss class, arrive late, or leave early, or if you have trouble completing an assignment, let me know as soon as possible, preferably beforehand. I will excuse absences for good cause. I will not accept explanations that are not timely.

Please use the University absence reporting website <https://sims.rutgers.edu/ssra/> to indicate the date and reason for your absence. An e-mail will be automatically sent to me.

Written Assignments (70%)

Writing well requires disciplined thinking, which, among other things, involves cognitive skills such as maintaining a cohesive train of thought and supporting ideas with adequate evidence. You will be given a writing rubric at the start of the semester, which use is twofold: 1) to set forth the expectations of your written work and 2) to consult when commenting on your peer's rough draft.

You will be assigned three (3) take-home papers during the semester. The first writing assignment is worth 20%, and the second and third writing assignments are worth 25% each of your final grade. Each paper is 5 pages in length. All written assignments will be posted online at least two weeks before their due date, and you will submit your papers electronically through Sakai, which in turn will be submitted to Turnit.com. Papers will also be returned through Sakai. All written assignments must be completed to receive credit for the course.

Please note: Papers are due on the designated deadlines. Make sure to back-up your work. Late papers—those submitted the minute after they are due—will be downgraded one full letter grade, and an additional full letter grade for each subsequent day the paper is late.

In-Class Writing Instruction

Throughout the semester, you will learn how to improve your writing through a variety of in-class exercises. You will be given a short excerpt of an historical essay, for example, and asked to identify and discuss the analytic elements of a well-developed paragraph.

You will also be given photocopied representative sentences and passages from your papers, and then asked to consider their successes and the opportunities for revision they present. Through revision, you will recognize how every component of your sentences is related to the other components in a way that is clear and unambiguous. In other words, the structure of relationships between actor, actions, and the objects acted on.

Documenting Sources

When using the direct words from a source or the diction of an author, these words must be enclosed with quotation marks and cited. Even when you paraphrase a passage using your own words, you still must cite the original source of the idea. You must also site materials discussed in class. The citation must appear in parentheses at the end of the sentence. For example, (Clark, et. al., p. 72). The last page of your paper must include a works cited page. For example, Clark, Richard, et. al. (2008) *Who Built America?* (3rd ed.) Vol. I. Boston/New York: Bedford/St. Martin's.

Become familiar with the university's policy on plagiarism at <http://teachx.rutgers.edu/integrity/policy.html>. Using others' ideas without giving full credit will not be tolerated in your assignments. Plagiarized material, especially information from the Internet, will be given a failing grade and reported to the office of judicial affairs. I encourage you to see me if you have any questions about your papers.

A useful style and grammar resource can be found at <http://andromeda.rutgers.edu/~jlynch/Writing/>

Grading Criteria

A	90-100%
B+	87-90%
B	80-86%
C+	77-80%
C	70-76%
D	60-69%
F	59% and below

COURSE READINGS:

1. Required Book. The following required book is available for purchase at the Barnes & Noble Bookstore (732-246-8448), located next to the New Brunswick train. It may also be purchased online at bn.com.

Christopher Clark, et. al. *Who Built America? Working People and the Nation's History, Volume I: To 1877* (Bedford / St. Martin's Press, 2008)

2. Required Online Readings: In addition to the required books, all required excerpted readings are available through Sakai. Be sure to print out and read each of readings for each week and bring a copy the reading to class.

Selected Virginia Statutes Related to Slavery

Bernard Bailyn, The Barbarous Years: The Peopling of British North America: The Conflict of Civilizations, 1600-1675.

Eric Foner, “Tom Paine and Revolutionary America”

Adam Smith, The Wealth of Nations, Chapter 1, “Of the Division of Labor”

Alexis de Tocqueville, Democracy in America, “How an Aristocracy Can Be Created by Industry”

Melvyn Dubofsky, “Labor Strength in the 1830s”

Sean Wilentz, “Metropolitan Industrialization”

Douglas Blackmon, Slavery by Another Name

Thomas Di Lorenzo, How Capitalism Saved America, Chapter 6, “How Capitalism Enriched the Working Class.”

Melvyn Dubofsky, Industrialism and the American Worker, 1865-1920, Chapter 3, “Workers, Industry and Society”

IN-CLASS VIDEO EXCERPTS:

Excerpts of documentary films will be shown as they relate to course topics. Below is a list and brief description of each film:

Columbus and the Age of Discovery (1992) Part I, PBS Series commemorating the 500th anniversary of the voyages of Christopher Columbus. This episode examines the world of Columbus and the motivations behind his first voyage that would shape the West.

Africans in America: America's Journey through Slavery (1998) WGBH, Part II, The Terrible Transformation: From Indentured Servitude to Racial Slavery. This film documents British involvement in the trans-Atlantic slave trade as told through the classic slave narrative of Olaudah Equiano.

Mill Times (2001) This documentary and animated program explains the technological changes that transformed the making of textiles from Manchester, England, to Lowell, Massachusetts in the late 18th century.

The Great Hunger (1997) PBS series on the Irish in America. This episode explores the great potato famine, which precipitated the one of the world's largest mass emigration to America.

Race: The Power of an Illusion (2003) California Newsreel, in association with the Independent Television Service (ITVS). This film explores how the founders of the nation reconciled the principles of

liberty, freedom, democracy on the one hand, and a system of slavery and exploitation of people who are non-white on the other.

1877: The Grand Army of Starvation (1984) American Social History Productions, Inc. This film presents a re-enactment of the great railroad strike and general uprising of 1877 that paralyzed the nation, where hundreds of railroad strikers and thousands of sympathizers across the country clashed with police, militia, and federal troops.
