Course Description

This class focuses on labor relations systems in professional sports in the United States. The course will provide a basic understanding of labor relations and labor law, as well as the business of sports. We will learn the history of professional leagues, the unions and the bargaining history for the four major sports (Baseball, Hockey, Football and Basketball) and others. Students are expected to participate in group and individual activities to learn about the collective bargaining process, and the operation of the various labor agreements in regards to salaries, discipline and free agency. As an online course, material will be covered in videos, online lectures, group projects and posted discussion questions. There will be two simultaneous activities that require students to be logged in at the same time to participate, along with one "test" date. The specific dates will be set based on the student questionnaires, due during the first week.

Equipment needed:

USB Headset with a microphone (other types don't work well); please do not attempt to use an "open" microphone built into a personal computer because it leads to feedback that will bother other students. You also need a personal computer with broadband connection. An I-pad, other tablet, or a smart-phone will not be sufficient.
