Autoethnographic Paper
Autoethnography is a form of narrative writing that views the author’s own experience as a topic of investigation in its own right. (For more on Autoethnography, see Autoethnography: An Overview.) Key to this experience and hence the paper is clarifying how culture (e.g., the sexual division of labor, use of communication styles & tools,
attributes of leadership, equation between productivity and hours worked, etc.) shapes norms & events. This paper will explore
1. your projected, current and/or past working life – compensated and/or non-compensated – and/or
2. work/family balance, an issue that affects men and women, using data you collect and will include a thesis, select references and a bibliography. That is, while the paper will focus on you, it is important to frame or contrast your experience using class materials including readings, videos, audio and/or lectures. You will produce and provide a draft for review along the way. Papers must be double-spaced throughout and 4 pages in length, each numbered with standard one-inch margins and 12-pitch font. Late papers may downgraded.
